How Nonfiction Books Are Arranged

Since nonfiction books have both letters and numbers as part of the call numbers, they are arranged a little differently than fiction books. They are first arranged on bookshelves according to their three-digit numbers. They are arranged starting with the lowest call number (000) up to the highest call number (999). Look at the bookshelf below. These nonfiction books are in order.

Sometimes more than one book can have the same three-digit number in its call number. When this happens, the books are arranged alphabetically by the author's last name. Look at the bookshelf below. These nonfiction books are in order, also.

➡ Rearrange the following nonfiction call numbers so that they are in order. Write 1-8 under the call numbers.
