

Name _____

Defining Words

Info has discovered that it is not always easy to find out the meanings of words in a dictionary. The other day he was having trouble figuring out what to do with his new toy. The directions said, "wind," and the meaning he looked at said, "air in motion". He is now all out of breath because he read the wrong definition for the word **wind**. He should have used the meaning that read, "to turn".

A word like **wind** is called a homograph because it has two different meanings.

Write two definitions for the homographs listed below:

stamp _____ pan _____

light _____ forge _____

turn _____ bang _____

mind _____ tap _____

fall _____ wound _____

read _____ mean _____

note _____ lug _____
