

Divide the Dictionary

To find words easily in a dictionary, divide it into three sections— A-H, I-Q, and R-Z. Look at the first letter in a word to decide which section it would be in.

➔ Write each word from the Word Bank in the section of the dictionary where you would find it. Write them on the lines below.

whale	juice	geese	always	door	lizard
queen	music	tree	keep	empty	nobody
coffee	brown	young	volume	unfair	rainbow
