Whale of a Trail

Nonfiction books are arranged on bookshelves first in numerical order by the three-digit call number. Then, if two or more books have the same three-digit call number, they are arranged alphabetically by the first two letters of the author's last name.

Look at the examples below.

Out of order: 150 Ba 220 Tu 150 Ma

In order: 150 Ba 150 Ma 220 Tu

▶ Follow the trail in the order that the books would appear on the bookshelf.

A trail of wavy lines connects various call numbers and author initials scattered across the page. The trail starts at the top left and ends at the bottom right.
