

Finding a Word

Dictionaries can be divided into three sections—the beginning, middle, and end.

In the beginning, you will find words that start with A-H. In the middle, you will find words that start with I-Q. The end is where you will find words that start with R-Z.

Remember this to help you find words in a dictionary.

► Use the dictionaries above to help you answer the questions below. Write **beginning**, **middle**, or **end** on the line. In a dictionary, where would you find the word ...
